

VITA-SALUTE SAN RAFFAELE UNIVERSITY

Founded in in **1996**, the Vita-Salute San Raffaele University is an academic institution that has rapidly risen to prominence, beginning with its **Psychology** course and expanding to include **Medicine in 1988 and Philosophy in 2002**.

The University is known for its exceptional integration of teaching and research. One of the University's defining features is its close affiliation with the renowned San Raffaele Research Hospital, a pioneer in cutting-edge medical and scientific research. This affiliation opens up endless opportunities for students and researchers to engage in groundbreaking projects and collaborate with experts at the forefront of their respective fields. The fusion of educational excellence and cutting-edge research at Vita-Salute San Raffaele sets it apart as a beacon of innovation and knowledge in Italy.

Why study at the Vita-Salute San Raffaele University?

1. San Raffaele University is located in Milan, the largest industrial and cosmopolitan city in Italy, capable of attracting students and visitors from all over the world all year round. With its perfect combination of classic and modern, Milan offers numerous cultural and entertainment venues, suitable for all needs: museums, foundations, cafeterias and restaurants. The international opening is combined with a dimension on a human scale, compared to the major European capitals, which makes it ideal for cultivating new friendships and hobbies.
2. The university is closely affiliated with the renowned **San Raffaele Research Hospital**, one of the hospital facilities of the San Donato Group and important research center recognized at European and international level. A pioneer in cutting-edge medical and scientific research, students are usually posted to San Raffaele Research Hospital for training, internship and research.
3. The University's mission revolves around the fundamental question "**Quid est homo?**" seeking to unravel the complexities of human existence, recognizing that humanity is distinct biologically, psychologically, and spiritually.
4. San Raffaele University offers numerous extracurricular activities in a campus that provides functional residences, cultural activities, sports and opportunities for solidarity where students can cultivate their passions, grow and participate in inspiring experiences for an all-round education programme that exceeds mere study activities.
5. San Raffaele University adopts a people-oriented approach with an eye towards the continuous interaction and satisfaction of the needs of all the individuals involved.
6. The very core of San Raffaele University is the research, not only in the medical field, but also in the socio-psychological and philosophical fields.
7. According to the AlmaLaurea 2024 report, **93% of San Raffaele graduates are satisfied with the overall university experience**.
8. Among Bachelor's Degree graduates who immediately enter the labour market, the employment rate stood at 91.7 within one year from graduation, while at Master's Degree level the employment rate one year after graduating stood at 75%.
9. San Raffaele University is committed to supporting students in building their academic career and planning their future.
10. Given the relatively small size of the campus, San Raffaele University offers an unparalleled lecturer : student : staff ratio hence streamlining teaching, services, support and guidance to the entire student community.
